

# Non-Tax Revenue

Revenues and resources which are received from sources other than taxes, like fines and penalties etc.

## Interest Receipts:

Interest on loans paid by PSUs UT's etc to Central Govt. are taken under revenue receipts & the principle amount returned is taken under capital receipts.

## Dividend & Profits

In PSUs the Govt has majority shareholding. The dividend and profits forms the revenue to the central Government.

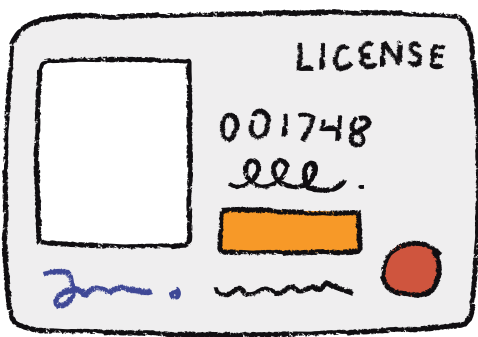

## External assistance

Various foreign nations like IMF, world bank etc provide grants in aid to central governments. Not included under capital receipts because it need not be paid back unlike them.

## Fee

Payment to the government for administrative & judicial services rendered to people. eg-Land registration fees etc.

## License & permits

Charged for allowing people to perform a given job. For instance, the driving license. No service is provided by the government.

## Escheat

Income of the government which arises out of property that comes to it for the wants of a legal heir.

## Special assessment

Payment which is made by the borrowers of those properties whose value has appreciated due to development activities undertaken by Government.

## Fines & penalties

Payments made by law breakers as economic punishments to the government.
